

The cloud provider with the digitalization platform “Made in Germany”

Pioneers of digital sovereignty

plusserver stands for cloud innovation “Made in Germany”.

All of our innovative product development is focused on keeping your data sovereign.

We provide a data-sovereign and vendor-independent foundation for your digital business processes.

Our secure, scalable cloud platforms enable customers to build future-proof, cost-effective digital applications.

As a pioneer of digital sovereignty, we are committed to the highest standards of security and privacy, and to promoting the sovereign and transparent use of the cloud in Germany.

Enterprise and public sector clients benefit from the unique combination of our superpowers

Germany’s first open source enterprise cloud

Did you know that we developed the first German open source cloud based on the Sovereign Cloud Stack (Gaia-X)? Today, this enterprise cloud is established as pluscloud open.

IT modernization at your pace

With expertise ranging from cloud-native to legacy architectures, we provide holistic consulting to government and enterprise organizations. We meet you where you are on your IT modernization journey.

Four pluscloud data centers in Germany

BSI C5 Type II? We have it. Our data center teams are proud that our four pluscloud data centers have achieved the highest levels of certification, including ISO 27001, ISO 9001, and PCI DSS.

Multi-cloud? Ready.

Our cloud platforms based on OpenStack (SCS) or VMware can be seamlessly integrated into your multi-cloud setup. No vendor lock-in or migration costs.

24/7 support DNA

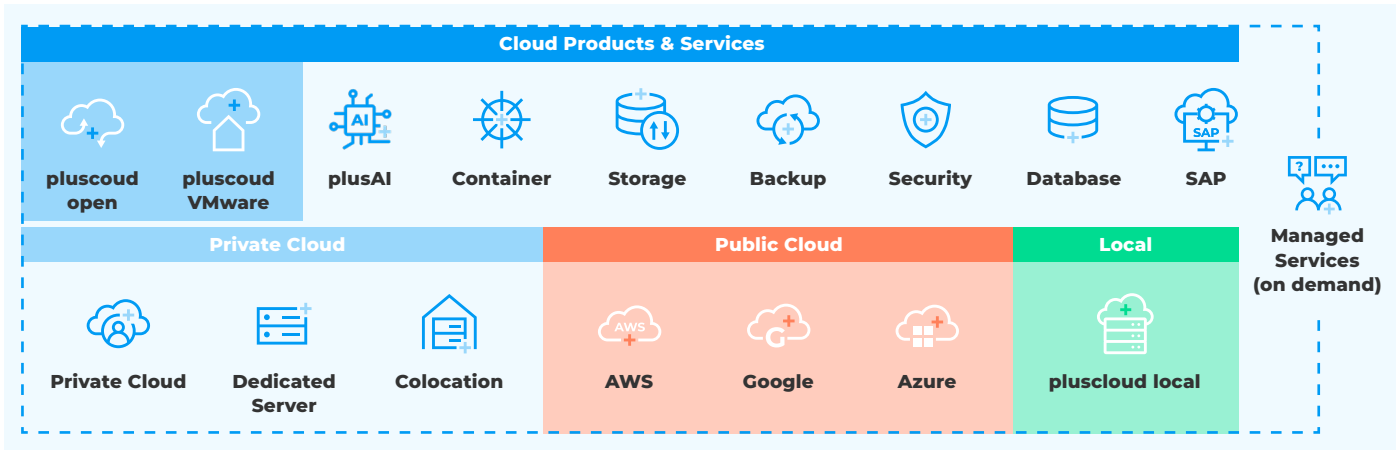

Our support organization and product development are based in Germany. We do business at eye level and are available 24/7 in English or German.

Holistic cloud ecosystem

How can IT modernization succeed in the face of a skills shortage? We rely on a diverse cloud ecosystem to address the challenges of digitalization. We work with you to identify the most value-added set of partners for your cloud project.

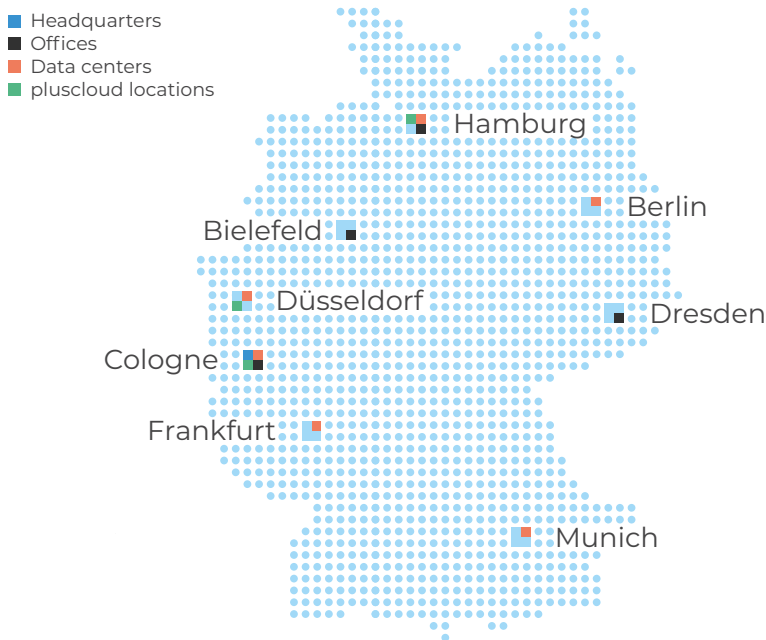

Our cloud products for your innovation

Computing power from Germany

As a German cloud provider, we focus entirely on the DACH region and operate data centers in the most important business locations throughout Germany. This allows us to provide you with personalized advice,

take into account local conditions and support you optimally on your cloud journey. Our cloud services are based in four locations in Germany – in Hamburg (2 x), Cologne and Düsseldorf.

1999 Founded	330+ Employees
2,000+ Customers	2023 Double Digit Growth in Cloud
